

RITE NOW @ ROP

At Meadowlark Academy, we take pride in involving ourselves in community activities. We recognize the importance of the positive influence that our community can have on our Student Athletes and how establishing such a connection can help our youth learn new skills, develop social skills, establish and rebuild relationships, and is the ultimate opportunity to give back.

Several of our youth engaged in community events at the Primrose Retirement Home in Cheyenne, Wyoming. Our male Student Athletes helped set up games, serve refreshments, and played Bingo with the residents-many of whom inquired when the students would be coming back. We returned later in the week with several of our female Student Athletes who gave manicures to a number of the ladies of the Primrose Retirement Home in preparation for their Mardi Gras party later that evening. All participants were beaming with happiness following the opportunity to engage in fun activities with a generation they may not normally interact with on such a level. We look forward to continuing to build relationships with the residents at the Primrose Retirement Home and enjoying shared activities.
